

Patient Information Bulletin

ATTENTION: SUN LIFE PATIENTS

Sun Life recently made changes to what dental procedures are covered under your plan.

These changes reflect a business decision by the insurer to control dental costs.

Your dentist is in the unique position to recommend treatment options that are best suited to your individual dental needs.

Fees for these dental procedures will reflect the treatment provided and may not coincide with Sun Life's new policies. This does not mean that treatment was billed incorrectly.

If you have questions about the cost of your treatment, please raise these with your dentist directly.

If you have concerns about the reduction in your dental benefits, please discuss with your employer.
